

# Back Office Management

## *The Software Veloce, Your manager*

Back Office Management Veloce is the very heart of our management system. All data, from billing and inventory to hours worked, are processed using the integrated tools of the Veloce management system, giving you a clear and accurate overview of your company's situation.

Back Office Veloce means:

- Programming menus, employee files and promotions using a very user-friendly interface
- Generating the various programmable reports available
- Managing system access for each supervisor
- Having an access portal for the various modules (Inventory, Time clock, Agenda ...)

Using the management and analysis tools Veloce has to offer, you have a handle on the growth of your company. In addition, with its modular design, Veloce can evolve in keeping with your growth.

Back Office Management Veloce, your trusted partner.
