

Point-of-sale

The Software Veloce, Your manager

Versatile, easy to use and fast, our point-of-sale system not only improves your customer service, it also helps you increase revenue, prevent errors and save on labour costs.

1. Table service

- Increased revenues through complete billing of all side orders, handy order changes, bill printing, cost redistribution and discounting can all be done in no time, giving you faster customer service.

2. Quick service and take-out

- Lets you enter an order, validate trios and receive payment in a flash. As soon as an order is over, the system is ready to handle the next customer.

3. Drive-thru service

- Same possibilities as quick service, with the addition of lineup management at the window.

4. Delivery

- See Delivery information sheet.

5. Portable

- Carries all the functionalities of the Veloce point-of-sale directly to the customer's table using the Pocket PC

As a good manager, your two most important elements are your customer and your revenues. This makes the **Veloce point-of-sale** your first priority, since it maximizes both your customer relations and your revenues.
